JULY 2020

From the CEO: Safety Surveying

Thank you to all who completed the TETAF COVID-19 Impact Survey. We have heard your concerns and will continue working on solutions to meet the challenges faced by Texas Trauma Systems (TETAS) and all of our member organizations. Both the TETAS and the Texas EMS Councils (TEC) continue to work towards opening the two joint project meetings this Fall. We had hoped to convene the Texas Trauma Coordinators Forum (TTCF) Board meeting in person, but it will remain a virtual meeting. The Texas EMS Council (TEC) Board meeting is now scheduled for August 17.

The TETAS Executive Board received a very positive report from the Texas EMS/Trauma Systems (TETAS) COVID-19 Task Force at their recent meeting. It was noted that the task force was effective in their timely work, but that some challenges still remain.

GETAC Council Meeting Update

The GETAC meeting scheduled for Monday August 17 will be a virtual meeting. The TTCF General Membership meeting scheduled for Tuesday, August 18 has been cancelled. Telemedicine in Rural Hospitals

Director of Rural Telemedicine, Darrin Lyerly, has provided several updates. In 2013, the National Pediatric Readiness Project surveyed more than 300 rural hospitals. The survey found that only 11% of rural hospitals were able to stabilize children. The Designated Roll Call Hospital (DRC), which can offer trauma care, was only found in 5% of rural hospitals.

Additionally, the TTDEC course for Tuesday, August 17 will be virtual. She will begin her new role on August 3, 2020.

SPEAK UP Conference Rescheduled

The 35th Texas EMS Conference is still scheduled for November 22-25 in Fort Worth. The RAC G Facility is the first Pediatric Ready Facility in Texas and continues to be very busy with 100+ kids/month. They are working on expanding both the ambulatory and inpatient areas.

COVID-19 Response by the Coastal Bend Regional Advisory Council (CBRAC)

The CBRAC held their meeting on May 18. The primary issue discussed was lightweight equipment that is needed for rapid deployment. A joint meeting with the City of Corpus Christi and the Coastal Bend Regional Advisory Council (CBRAC) was held. The board discussed the need for personal protective equipment for firefighters. The need for personal protective equipment for firefighters was discussed.

COVID-19 Impact Survey

This brings me to our recent COVID-19 survey. If you have not taken the survey, we would appreciate your participation. The survey should take no longer than 5 minutes. We appreciate all of you who have been working tirelessly through the pandemic. We are looking forward to establishing a regular schedule to surveying in hospitals since the pandemic began. If you have completed the survey, thank you for input.

We have the survey available on the TETAF website or email at info@tetaf.org.
